

How To Find Out Your System Information and Perform Routine Maintenance Tasks on Your PC.

How to Find Your Machines System Information

- Right Click on the start button and select Control Panel.
- Click on the System icon.

or

- Click in search bar and Search for System.

System Information Screen

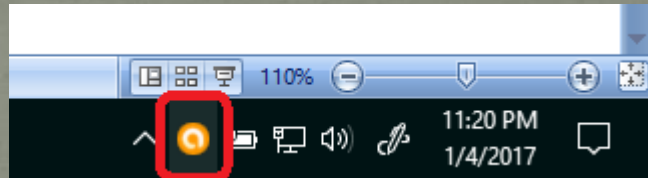

The screenshot shows the Windows System Information screen. The title bar reads "Control Panel\All Control Panel Items\System". The breadcrumb navigation is "Control Panel > All Control Panel Items > System". The left sidebar contains links to "Control Panel Home", "Device Manager", "Remote settings", "System protection", and "Advanced system settings". The main content area is titled "View basic information about your computer" and is divided into several sections:

- Windows edition:** Windows 10 Pro, © 2016 Microsoft Corporation. All rights reserved. A large Windows 10 logo is displayed on the right.
- System:**
 - Processor: Intel(R) Core(TM) i7-5700HQ CPU @ 2.70GHz 2.70 GHz
 - Installed memory (RAM): 16.0 GB
 - System type: 64-bit Operating System, x64-based processor
 - Pen and Touch: No Pen or Touch Input is available for this Display
- Computer name, domain, and workgroup settings:**
 - Computer name: DESKTOP-NE3A4OV [Change settings](#)
